

Architectural Design

Activity 1

Situation

A picture is worth 1000 words so the saying goes. Pictures are used to communicate messages in many different ways.

Problem

Explore why pictures are so useful.

Procedure

- View the PowerPoint on the website
- Create a chart to compare and contrast the difference and similarities between freehand sketching, technical drawing and computer-aided design.
- Find an example of each type of drawing and attach it to your chart
- Attach the chart to your website
