

Architectural Design

Activity 2

Situation

Drafters use a variety of tools and procedures to create accurate plans and images.

Problem

Use a variety of drafting tools to create images neatly and accurately.

Procedure

- Watch the video on the use of drafting tools from the website.
- Gather the tools from the supply table- T-square, triangles, compass, and ruler
- Using the handout provided recreate the drawings to take up a full page of white paper using the drafting tools
