

Architectural Design

Activity 3

Situation

Objects are often drawn in different views and at different angles in order to clearly show detail or dimensions.

Problem

Use the interactive tool to create an isometric drawing on the isometric dot paper.

Specifications

- Your shape should include faces, edges and cube.
- Your shape must be more elaborate than just drawing a four sided figure (NO CUBES)
- Your shape must represent 4 different colors.
- A screen shot of your completed image must be captured in two different rotational views and uploaded to your webpage.
